## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 2, 7-9, 14, 15 and 20:

The primary reason for the allowance of claims 1, 2, 7-9, 14, 15 and 20 is the inclusion of applying a voltage between the live electrical section and the conductor section after performing one of a withstand voltage test and an insulation resistance test between a live electrical section electrically connected to the solar cell and a conductor section of the outer housing. It is these features found in the claim, as they are claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes this claim allowable over the prior art.

Claims 3-6, 18 and 19 are allowed due to their dependency on claim 1.

Claims 10-13, 16 and 17 are allowed due to their dependency on claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
